

Imagine a scrap system designed  
never to see the light of Day

The Secrets of  
Engineered Pneumatic  
System Designs  
Are Yours  
For The Asking

Shredders

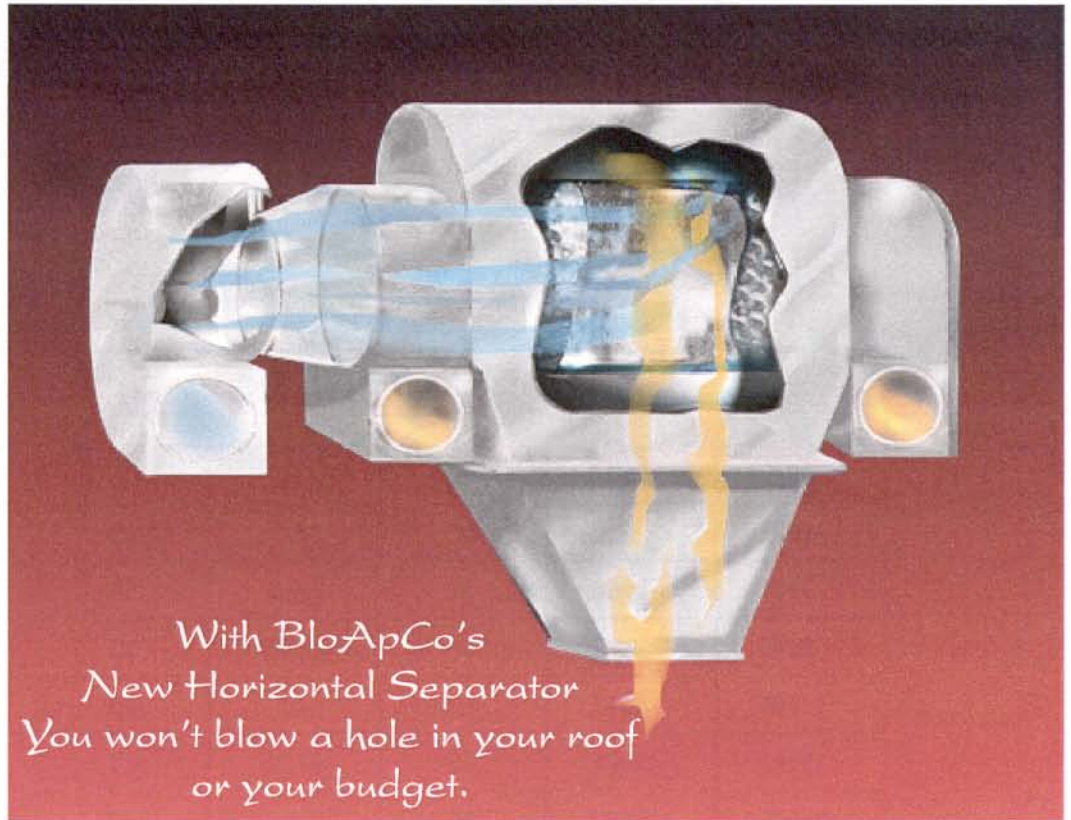

Trim Cutters

Material Handling  
Fans

Diversers

Bale Transfer

Seal Drum  
Conveyors

With BloApCo's  
New Horizontal Separator  
You won't blow a hole in your roof  
or your budget.

Eliminate environmental issues  
with a complete scrap collection system  
all under the roof.

- Return air fan neutralizes air pressure in the baler hopper.
- Minimize downtime maintenance - with no moving parts to wear out.
- Eliminates sizing screens - no adjustments needed for different materials or sizes.
- BloApCo will design a system to fit your existing height limitations.
