SLITTING COMPLEX

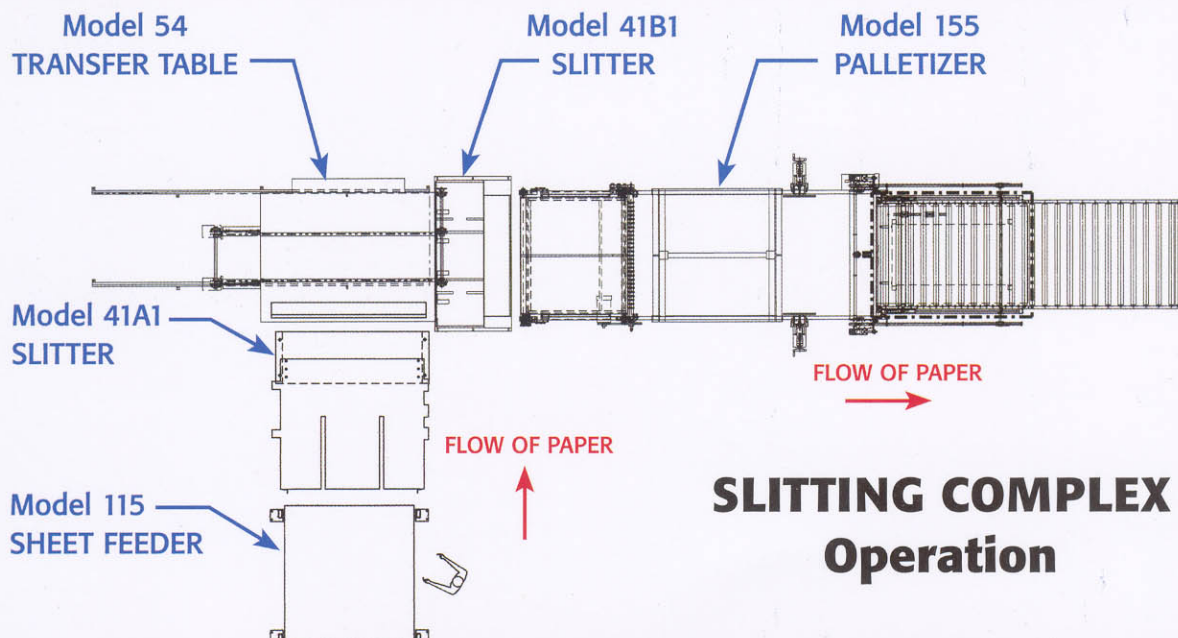

Board Slitting Line for book covers,
loose leaf binders, game boards, etc.

- Guaranteed square cuts
- High volume production that easily withstands harsh, around-the-clock operation.
- Split hub/knife arrangement for fast set-ups.
- Only one operator is required to run this complex, with the addition of our sheet feeder and palletizer machines.

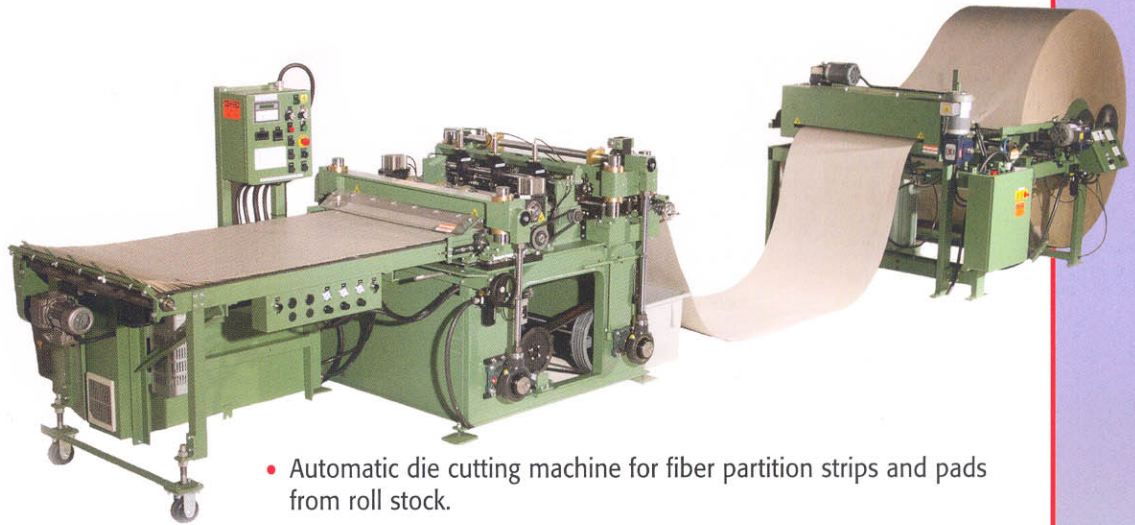

The slitting complex can be configured with a basic hand feed operation to fully automatic (pallet to pallet). Our machines are modular in that you can increase automation by adding equipment such as:

- Model 115 Sheet Feeder • Model 155 Palletizer • Model 215 Scrap Chopper

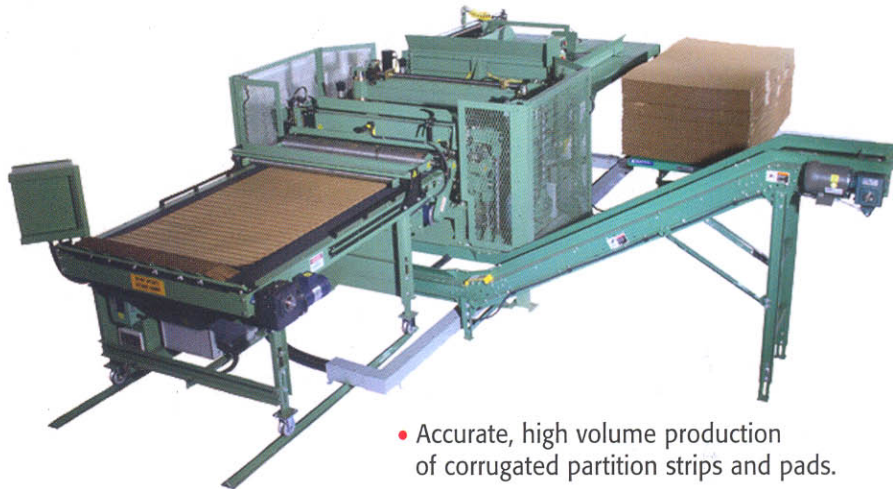

PARTITION

Model #195 FIBER CHIP BOARD STRIPPER

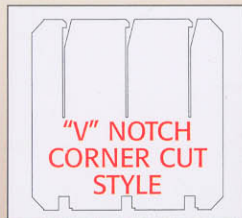

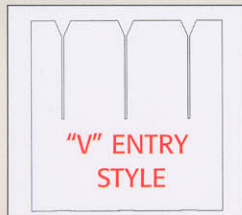

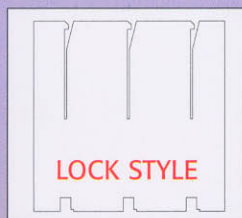

- Automatic die cutting machine for fiber partition strips and pads from roll stock.
- 36 inch (91 cm) width capacity for high volume multiple out production. Available in several width capacities.
- Rapid change-over utilizing our top and bottom die set-up plates and shaftless roll rack.
- Wide variety of dies available.

Model #209 CORRUGATED DIE CUTTER

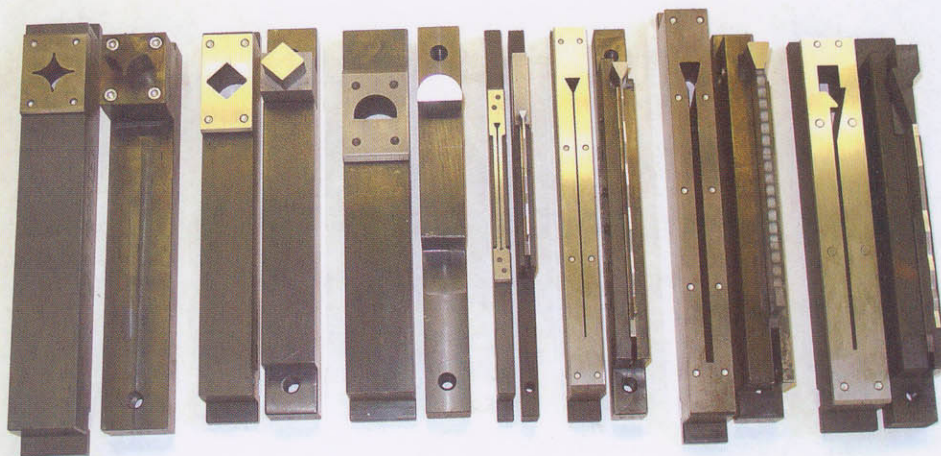

- Accurate, high volume production of corrugated partition strips and pads.
- This machine will die cut, slit, edge trim and cut to length nearly any configuration in one pass.
- Provides a clean "V" entry slot for faster assembly.
- Corner Cuts, "V" notching, creasing, scoring and letter piercing options are available.
- With the addition of an optional tension table and roll rack, it can manufacture solid fiber partition strips from roll stock.
- Optional automatic sheet feeder is available to eliminate the hand feeding process.

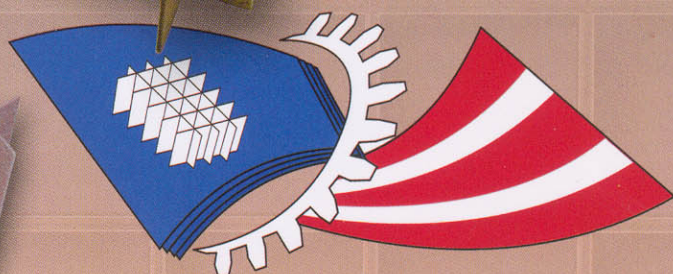

PARTITION STYLE SAMPLES

TOOLING/ DIES

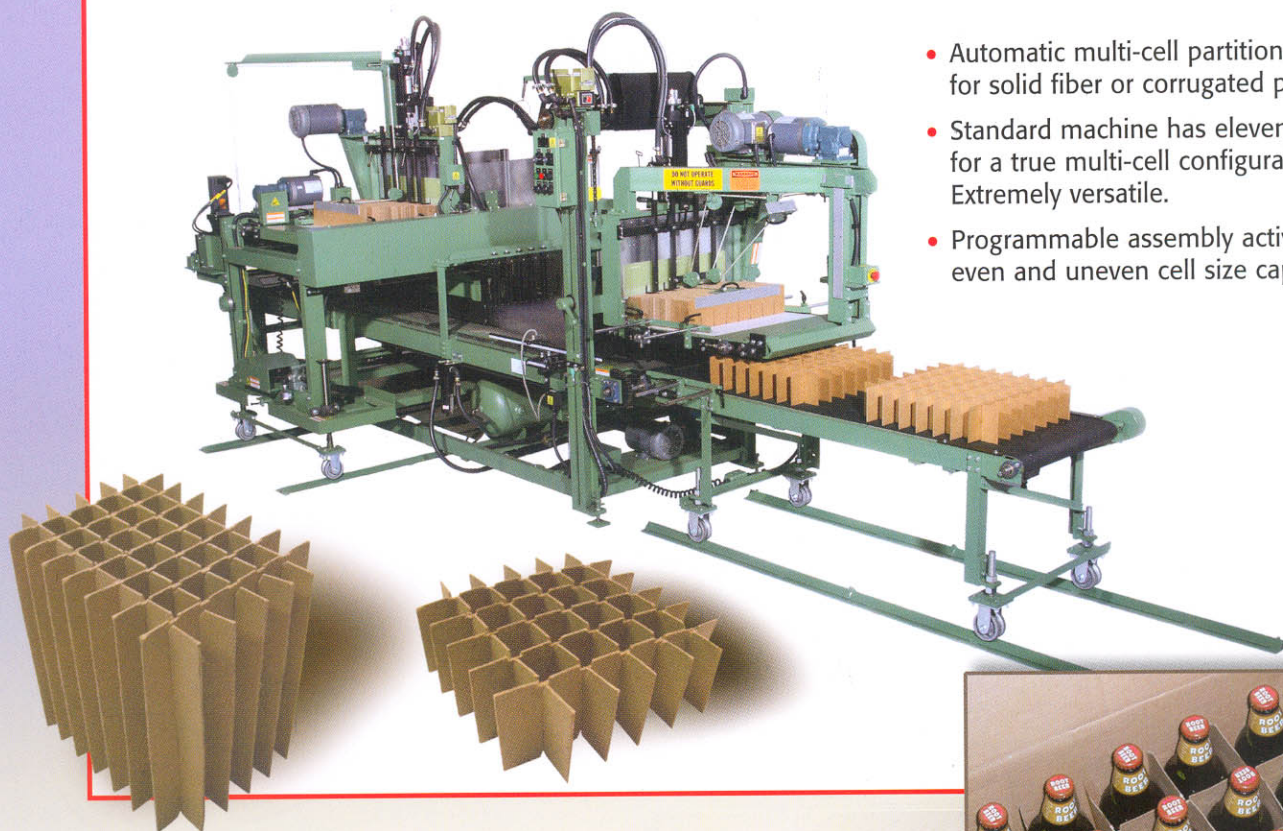

- Huge selection of standard dies for fiber and corrugated partitions.
- Custom designs available for your specific requirements.

MACHINERY

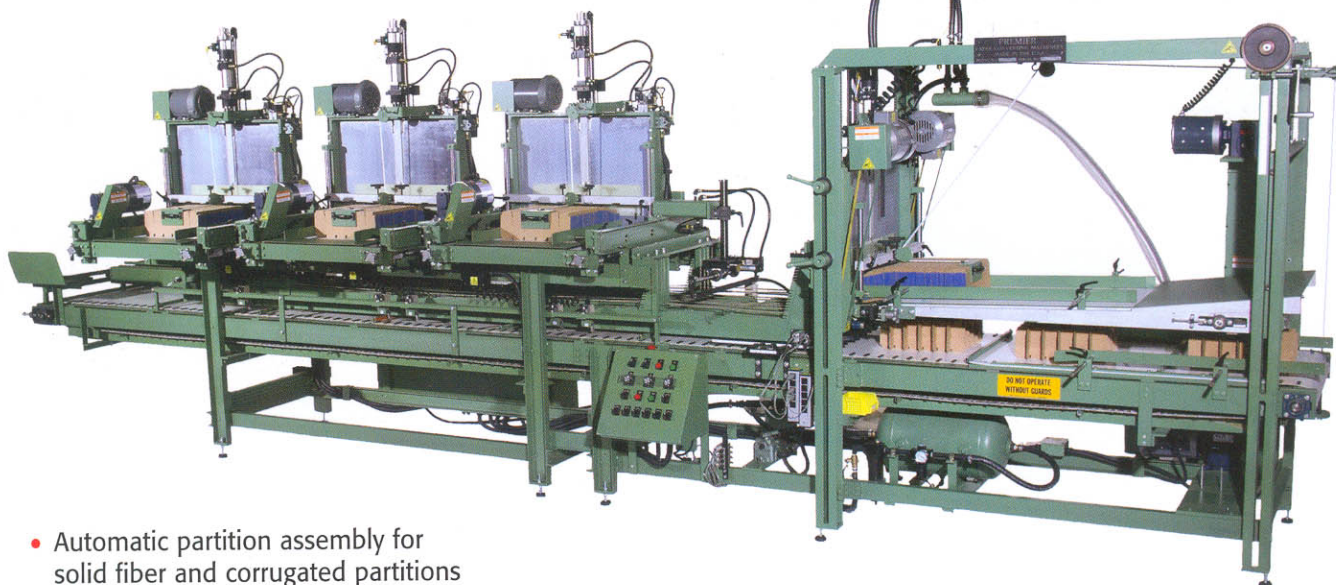

Model #123 ASSEMBLER

- Automatic multi-cell partition assembly for solid fiber or corrugated partitions.
- Standard machine has eleven channels for a true multi-cell configuration. Extremely versatile.
- Programmable assembly activation for even and uneven cell size capability.

Model #91 ASSEMBLER

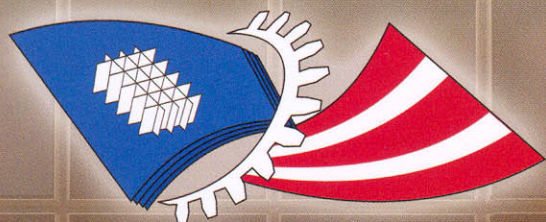

- Automatic partition assembly for solid fiber and corrugated partitions
- High volume production rates for beer and wine bottles and other glassware.
- Only one operator is required to run this machine with our collapser machine
